The Legion also is seeking the adoption of a policy which will contemplate the anticipation of *rehabilitation* of the disabled veterans at the time when such aid is made apparent. Instead of waiting two or three years.

The Legion's efforts for legislation in behalf of the disabled did not end with the \$15,950,000 hospital construction bill of last December, and the pending *Readjustment Act*, the "World War Veterans' Act," passed in the last session of the House, and which included many of the Legion's major recommendations made at the Louisville convention.

LEGION LEADER TO BROADCAST FROM BLIMP

By GEORGE HAMBLIN

Greetings to the nation from the American Legion convention will be broadcast from the air Tuesday afternoon at Boston, as typed by National Commander O. L. Hedenhamer, it was announced today by Airport Superintendent Edson.

The blimp Mayflower will be used for the broadcast, which will be picked up at the airport and transmitted over a nationwide chain of stations. This will be the first national broadcast ever performed over Boston from any type of aircraft.

The planes of the National Guard air unit, First Observation Squadron, headed by Capt. Albert L. Edson, headed to New Bedford last evening to join the Col. Green, South Dartmouth air enthusiast to the eight-day Legion air show which opens Saturday.

LIGHTS BURNING
Capt. Edson was flanked by Capt. E. Stanley Beck and Lieut. Charles Emerson, all three Capt. Edson observation planes. The three ships, with their navigation lights burning, presented a pretty picture to watchers on the ground as they went over the runway to New Bedford.

The Los Angeles, giant navy dirigible, is expected to fly over Boston on Wednesday, with a possible meeting to her tender, the *Pelika*, out in the harbor.

Arrangements are being made to have Capt. Frank Hawes attend the show with his biplane. Travel Air mystery ship, Jimmie Doolittle and Jimmie Doolittle will both be here and if Hawes can come, a race between the three speedy planes will be arranged.

AIRPORT DEST
Although the dust nuisance for spectators has been done away with, the flight of the 16 National Guard plane yesterday showed the need of an all purpose for the entire airport. The powerful engine down the runway kicked up much dust that it was minutes before they could get in the air.

With the air show almost here, and the absence of rain, the need of more oil is imperative.

Her \$1020 'Money-Maker Won't Work

Body in Lake Believed to Be Plane Victim

CONCORD, Oct. 1 (AP)—The body of a man, believed to be that of William McNulty, Columbus call manufacturer, was discovered today in the harbor.

McNulty has been missing since Wednesday, when an airplane he occupied with Pilot William Parker of Cleveland crashed in Lake Erie. Parker's body has been recovered and wreckage of the plane was found along Lake Erie shore.

WOMAN LOSES \$1020 IN COIN SWINDLE

A man with a "money-making machine" got \$1020 from Mrs. Maria Saliba, 35, mother of two children, of Oak pl., South End, last Friday, according to her report to police, she thought he placed the money in the machine. He went to his automobile for an accessory and drove off.

GILLIS MAY RUN FOR SHERIFF

Newburyport, Oct. 1—Having spent three months in one involuntarily and being a volunteer dweller in another, Mayor Andrew J. ("Boss") Gillis today was considering running for county sheriff on the slogan "a friend of jail."

The red-headed mayor, who ran far in the race in the Republican Senatorial center, decided he can save the county expense by selling the sheriff's house in Salem and closing the "vacation farm for friends of public officials" in Middleton.

Law breakers, especially bootleggers, he believes, "should be kept in jail instead of being allowed to see boxing matches in Boston with their keepers."

Ellis Parker Butler Boomed by Democrats

Daily Antique
No. 211

This rectangular cupboard was built in 1740 by one of the American Colonists. Its narrow, curved shelves with plain rings carved near the back and the carved edges on the top and side pieces are characteristic of many cupboards of pre-Revolutionary days.

The door at the bottom, attached by the customary H-hinges, opens upon the wine compartment. On the shelves in the upper section, select pieces of the family pewter were displayed, as in this illustration. The soft gray color of the use metal was particularly attractive against the natural wood.

Silver was not common, except among the well-to-do families; however, their prettier collections were prized and were given a prominent place in the home. This cupboard with its interesting display of pewter may be seen at the Museum of Fine Arts.

PORT OF BOSTON

By CARL MORRISON

Back home and broke . . . The ship news editor's vacation was no exception to this familiar ending, but his "time off" has plenty of variety.

This vacation, in part, turned into a suspension of the three major ways of traveling—rail, steamship and airplane.

It may be treason for a ship news man to make this admission, but his preference ranked in this order: airplane, steamship and rail.

The first leg of the trip was from Boston to Washington, D. C., by rail. The next, hop was from the capital to New York by air, followed by a stopover in Philadelphia.

The editor discovered a modern "achievement" story developing in Washington, in which Patrick J. Taft, formerly of Springfield and Taft, is playing the lead. He is manager of the New York Philadelphia and Washington Airplane Corporation, an "infant" air line.

Only three weeks old at the time the writer made the hour and a half flight to New York, this line had already broken all world records for numbers of passengers carried in their airplanes.

In these three weeks, some 2000 paid passengers were carried, which beats the records established by the air companies crossing the English Channel.

The outstanding feature of the planes leave every day, regardless of whether or not there are passengers.

"Pat" Taft formerly was with the U. S. Navy fleet during the war. He has been with the Eastern Airway, Inc., of Boston, with the Massachusetts Airways and with the Waco plant as assistant manager.

ANNOUNCEMENT

While in Washington, the writer spent several hours in the offices of the U. S. Shipping Board, offering regarding the local Army. When terminal of the local Army officials were courteous and provided all the information desired. This information will be related in a special article of brief articles in this column. The articles will give the background to the terminal situation and will touch upon the investigation by the port authority.

N. E. WILL HEAR
TYPICAL GIRL
ON RADIO

By RUTH MUGGERIDGE

New England's Typical Girl will be on the air Friday at 5:30 p. m. through Station WLEX.

In a 10-minute skit, written especially for her, Miss Lucy R. MacDonald, Mattapan school teacher and representative of all New England womanhood on the forthcoming free trip to Paris, will be interviewed by the Typical New England Girl Editor.

The winner of the quest of the Boston Evening American and Miss Gloria Swanson to find the finest of New England femininity will tell the radio audience also.

There are boys days for Miss MacDonald. For when she isn't planning that glorious jump to Paris as the guest of that famous movie star, Gloria Swanson, she is busy explaining the "three P's" to growing eight and nine-year-olds.

To see SWANSON FILM—Next week Miss MacDonald will view at Loew's State Theater Miss Swanson's sensational talking picture, "The Girl Who Came to Stay," which will reveal to the Typical Girl the landmarks of French history and aristocracy that she will soon visit.

December is the month, and the twelfth day when Mattapan's glorious specimen of New England womanhood steps aboard the ill-fated ship to Paris to enjoy such opportunities as have never before been offered to a girl reader of any newspaper.

With 220 reader away to spend in Paris, Miss MacDonald will be bound for a blissful week of educational adventure.

PARTIES PLANNED—Modest note that she is, Miss MacDonald still keeps pinching her lip to assure herself that it isn't a dream, that she is actually going to Paris in December; that she is to go as the guest of the Boston Evening American and Gloria Swanson.

Until then many social gatherings are to fall her way. Friends are to take her from the house of one admirer to another.

In Old Boston—No. 374

Massachusetts Tercentenary, 1930

There are street railway veterans still living who remember the last days of the horse-drawn snowplow 40 years ago. This picture, made on Washington st., at Northampton, was taken some 60 years ago. "Four horse time" and work on the snowplows was tough on the street railway men of those days, but they stood out in the weather and "took it."

Their modern successors ride inside heated cabs and have no need of buffalo coats or other heavy clothing.

Cattle Lead Movie Stars to
Safety From Snow

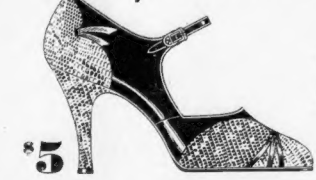

Rosona, Cal., Oct. 1 (AP)—More than 200 members of a motion picture company arrived here early today, after being driven by a heavy snowfall from "location" at Brightman's Flat, where a picture was being made.

Five hundred cattle tramped the snow to make a pathway for the company to descend to Rosona. The snow is 15 inches deep in some places, caved in two of the tent houses of the picture colony last night.

The company left behind some heavy sound equipment, but it was expected the snow would melt in a few days and it could be brought out.

Among the actors in the company are Gary Cooper, Lily Damita, Ernest Torrence and Tully Marshall.

Heavy snow covers many parts of the country.

Junior League to Elect Provisional Members

THE EXECUTIVE BOARD of the Junior League meets today for the purpose of electing provisional members from this winter's debutante group. "Buds" are eagerly awaiting word as to whether or not they are on the coveted list. The meeting will be held at the new headquarters of the league at Marlborough and Arlington sts., a beautiful brick edifice in the modernistic manner.

MRS. EDWARD HOAR WARREN is president for another term. Mrs. Charles Higginson (Roberts) Robinson of Cohasset will handle the publicity this season as Miss Marianne Upton, the able officer of the past year, has decided to make other plans for the winter and will turn the office over to Mrs. Higginson today. We welcome the new publicity director, although we regret that we heard of Miss Upton's resignation.

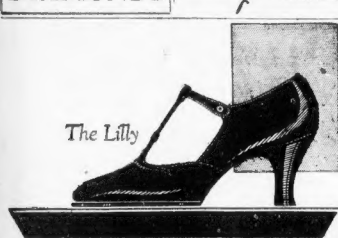

MR. AND MRS. HENRY S. GROW and family will remain at their West Manchester estate until the 6th of October, when they will return to their Boston residence on Marlboro. Their daughter, Miss Ethel Grew, will enter the Long School of Music in Cambridge this winter.

A DEBUTANTE OF THIS winter, who is enjoying a trip to Whitefield, N. H., is Barbara Eaton of West Newton and Marlborough. She is the guest of Mrs. Manning Williams at the Mountain View. Miss Eaton spent the summer with her family at Sea Gull.

"MILK gives the extra Energy"

JUNIOR always seemed to like school, as well as any normal boy could, and was real smart in his studies, but when it came time for his home work he didn't seem able to get his mind to it. Not lazy, you know, but low vitality and lack of energy. It simply meant that he wasn't getting enough energy renewing food to last him all through the day. So I decided to try giving him an extra glass of milk to counteract that zero hour. And it worked wonders. Now Junior gets his home work more easily. Daddy and I too have learned that when we follow the good health rule of four glasses of milk a day for children, a pint or more for adults, we all feel rested and refreshed, right up to bedtime. Milk, you know, does more than build body, blood, bone and brain, its vitamins re-energize, create the new and reserve energy which carries on from day to day. Milk, in some form, and a leafy vegetable, should be in every daily diet—for good health's sake.

Ex-Mayor Conwell of Somerville Will Address Women's Republican Club

Problems of Politics Will Be Taken Up at Platform Discussion Tonight

By NANCY BREWSTER
Members of the Women's Republican Club of Massachusetts will consider the problems of politics and the Republican party when the program session opens tonight at the clubhouse with a session devoted to party principles and platform. The meeting is to be held at the clubhouse at 4 p. m. with Miss Katherine Vose Parker, president, presiding.
At this time the political department of the club of which Mrs. Frederick E. Judd is director, also vice-chairman of the legislative department of the Massachusetts State Federation of Women's Clubs will introduce Leon M. Conwell, who will be introduced by the chairman of the afternoon, Mrs. Thomas E. Matthews.
There will also be a review of a current novel by Mrs. George M. Norris. Mrs. Frederick J. Moffat will report the annual meeting of the parent body at Swampscott last May. A member of the state committee, will also talk on "Our Party Principles."
Announcement is made at this time by club officials of a personally conducted trip through the Tercentenary Exposition of Massachusetts governmental activities at Commonwealth Avenue tomorrow morning at 10:30 a. m., arranged for club members and their friends by the political department.

Brookline Woman's Club to Open Fall Season on October 27

"Be sure to come to the Colonial party, our opening club meeting, Oct. 27, and help us forge the first link in our proposed chain of cordiality by extending a hand of fellowship to all around you. I hope for a record attendance."
With this the opening message to Brookline clubwomen from their president, Mrs. James Arthur Carter, the Brookline Woman's Club will get going in another month, increased membership the keynote of the October program.
And she will repeat her message when the executive board day is held Oct. 27.
This club holds meetings at Whitney Hall at 2:30 p. m. For this special afternoon Mrs. E. Wilson Lincoln, Mrs. Walter T. Spencer, Mrs. William C. Rose and Mrs. Elfrida K. Haines will also act as co-hostesses. Mrs. Robert J. Walsh and Mrs. W. O. Lima are to be the stewards.

Tunic Blouse Is Chic

IN THE old regime, Russian peasants had a veritable uniform. Now it has come to a modern interpretation. The tunic blouse, in frocks, and continued in the front and back by a narrow leather belt, topped by upstanding collar of black Persian lamb. The pattern line is repeated on the sleeves, and in the skirt flare. The agencies of the blouse of white wool lace also blouse, peignees, scalloped, the belt of the back and vest front, marked by crystal buttons. The draped hat of black velvet, having a band and bow right side front of white galaxy fur.

WHETHER OR not the vogue for ensembles will be as good this fall as it has been in the past is a question quickly answered by the appearance of ensembles of Russian. One such outfit is the two-piece frock of knitted fabric with a belt to match. The blouse usually follows the style of a jacket, confirming the smartness of the waistline blouse that anticipates the tailored suit of the spring.

THE WOOLEN suit with a new cut is the very symbol of fall's early advent. And when it is black or black in part, at least it is supremely satisfying.

THE NEW suit often wins by a color. If we may take the liberty of calling black a color, it is surely, for haven't we the oft-

Mass. Daughters to Postpone Opening Meeting for Month

By vote of the executive board of the Daughters of Massachusetts, because of the overabundant number of activities on schedule for the national convention of the American Legion and auxiliary, no meeting will be held during October.

Club activities will therefore begin November 13 when not only will the membership enjoy a busy season to start off with, but a program of tertiary aspect and a social half-hour. Of the many activities on the club program, one of the most interesting is the card party and fashion show to be held early in February in the Hotel Statler ballroom.

Officers of this club in addition to the president, Mrs. Gus, are Mrs. William J. MacDonald, first vice-president; Mrs. J. Herbert Libby, second vice-president; Mrs. James E. Peabody, third vice-president; Mrs. Fred B. Wheeler, recording secretary; Mrs. Ernest L. Brown, corresponding secretary; Mrs. Henry A. Fiske, treasurer; Mrs. Charles Bonney, Mrs. Frank Marshall, Miss Sarah Fiske Ruellet, Miss Nellie L. McKay, directors.

Mrs. Frank Steyer Jones, chairman of reception; Mrs. George E. Sanborn, chairman of hospitality; Mrs. Percival G. Powers, chairman of publicity.

Massachusetts Daughters want other clubs to know that their membership is "increasing rapidly" and a "brilliant year" is anticipated. This, according to Mrs. Powers.

CAPT. FOLGER TELLS WHY WHALE COULD NOT HAVE SWALLOWED JONAH

EXPERT PICTURES WAYS OF SEA MAMMAL

Did a whale swallow Jonah? According to Capt. A. E. Folger, veteran New Bedford whaler, who is here in connection with the exhibition at Stuart and Tremont sts. of the 55-foot captive whale, a whale did no such thing.

"The little is the only book I ever read," explained the 51-year-old grizzled tar, "and I defy anyone to show me where it says that a whale swallowed Jonah. You will find that the good books say: 'The Lord prepared a great fish that swallowed Jonah.'"

"Now in the first place it says very distinctly 'fish,' and a whale is not a fish, but a mammal or warm blooded animal same as a cow. Fish breed by laying eggs, but whales are born in the same manner as an animal or human and the baby whales are suckled by their mothers. Moreover, a whale does not swim like a fish with its fins, but by using its tail as a propeller and it travels at a good speed of 30 miles an hour."

"Secondly, although it is a mouth of a whale like 'Alma' here, even though she is 55 feet long and weighs 48 tons, is big enough to hold half a dozen horses at one time, the throat is so small that a large sized grape fruit would not pass through."

Capt. Folger has given this lecture in numerous parlors and private schools, Y. M. C. A.'s and before various civic organizations and never yet has anyone that could produce proof that it was a whale that swallowed Jonah. So it seems that 'Alma' and all the other whales since time immemorial have been grossly slandered.

But no one need get the idea that they are milk creatures. They are just the reverse. The amazing blow of a whale's tail is the greatest force that can be delivered by any living thing. The boats that captured 'Alma' were in constant danger of being stove in and the gigantic mammal was killed and captured only after a battle that lasted 16 hours.

The exhibition here is for a limited period only. The whale is encased in a huge glass case, and spectators can inspect the animal in exactly the same shape that it was when pulled from the waters of the Pacific.

GUS VAN WILL TOUR CIRCUIT

Gus Van, formerly of the famous Van & Research, who will headline next week at the Keith-Albee, has made such a hit as a "single" entertainer in RKO vaudeville that he has been engaged for the entire RKO circuit. Shortly after the sudden death of his partner, with whom he had been associated for more than 10 years, Mr. Van announced that he did not believe that he would ever go on the stage again, and, if he did, it would never be with a partner.

To the pleasing of friends that he continues in vaudeville, Mr. Van succumbed to his word, at a single entertainer. He opened in New York about three weeks ago, offering a program of song numbers in which he sings in several dialects. He has been a "knock-out" with every appearance. After a few more shows in the East he will start for the West on a long tour.

Stage Who's Who

St. Clair Bayfield, in the role of the old-time tragedian in "Miss Gulliver's Travels," at the Plymouth, played his first engagement in the United States, in Boston, at old Chickering Hall, with the Ben Greel Players. "The Shepherd's Play," "Everman" and several Shakespearean plays were in the repertoire. Greel's company played a tour of the St. Clair Bayfield country, which, although not quite as primitive as in 1812, gave Mr. Bayfield an excellent background of experience for the role of Kendle Dracey, which he created in the original production of "Miss Gulliver's Travels."

Mr. Bayfield again came to America as a member of Sir Herbert Tree's company. Later he joined Henry Jewett's repertory company in Boston for several seasons.

GLORIA SHUNS MANY STAGE OFFERS

In spite of numerous flattering offers for her appearance on the stage, Gloria Swanson will stick to the talking screen for the present.

"No motion pictures are my first interest," she said during a discussion of stage and screen, "I feel that for the time being, at least, I should remain in them. I would not want to attempt public appearances without properly preparing myself, which requires considerable time. Pictures, unfortunately, leave little time for anything else."

Miss Swanson will be seen and heard in "What a Widow" at Lew's State next week.

While making "What a Widow" with Allan Dwan as director and a supporting cast headed by Owen Moore, Margaret Livingston and Lew Cody, Miss Swanson received more than half a dozen singing offers from various stage production and concert managers.

Can You Do Your Housework?

If you are not as well as you want to be, if you are weak, nervous or rundown, give Lydia E. Pinkham's Vegetable Compound a fair trial. Take at least three bottles. It will tone up your whole system and help you to eat better, sleep better and feel better.

Mrs. Marie Vriesenga, 2002 Lexington Ave., New York, New York.

"My work is keeping a rooming house in New York. I was weak and tired and didn't seem to feel well at all. Some friends told me about Lydia E. Pinkham's Vegetable Compound and I took it four times a day. It has helped me very much. I feel better in all ways now."

Ask Your Friend:

Mrs. Paulina Pascuzzi, 316 Tremont Ave., East Orange, New Jersey.

"I never had any appetite and I could not sleep well, and I was irregular and often suffered from headaches because of my age. I read a booklet left at my door, and so I took eight bottles of Lydia E. Pinkham's Vegetable Compound and I have also taken the Herb Medicine. I feel stronger in every way now. I have gained weight and am not nearly so nervous and can do my housework without getting too tired."

Edna Sluraff, 1129 Dally St., Philadelphia, Pennsylvania.

"I was completely rundown from nursing. I took four bottles of your medicine with very good results. I have been a nurse for twenty years without losing a patient. I am proud to say, I will continue to recommend any of the Lydia E. Pinkham products at any time and you may use my name."

WHY HOSPITALS EVERYWHERE USE PLUTO WATER

Famous Cook County Hospital Keeps Pluto Water on Hand for Attending Physicians

HOSPITALS everywhere carry a supply of Pluto Water for the benefit of their patients. For this reason, laxative is prescribed. Thousands of doctors regularly prescribe Pluto Water as the ideal saline water laxative.

Doctors can't afford to take chances with constipation. Decomposing waste retained in the bowels may lead to extremely serious complications. Pluto Water is as much a staple in hospitals as bandages and iodine. Doctors have prescribed Pluto Water for more than fifty years. It is a part of the pre-operative treatment in many hospitals. Hospital assistants no longer need to be told—Pluto Water is a part of the treatment in hospitals the country over, for scores of ailments.

Sick people can't stand the irritating, gripping, dangerous pangs that come from harsh vegetable laxatives.

A doctor wouldn't think of operating on a patient with dull instruments—he'd know that delicate tissues would be torn and strained beyond repair. Why, then, should he administer a laxative that tears and twists the delicate walls of the intestines?

He doesn't—that's the answer! He gives his patient Pluto Water—Nature's own water-wash for congested bowels!

Very often "Pluto Water" is the doctor's order; quite as often, the hospital attendant's own knowledge and experience dictate Pluto Water—always with the doctor's approval, for he knows Pluto Water will act gently, certainly, quickly!

Well, then—If Pluto Water is safe for delicate sick people, isn't it the safest laxative you will people can take?

Chief Pharmacist, Cook County Hospital.

Pluto Water

AMERICA'S LAXATIVE MINERAL WATER

WHEN NATURE WON'T, PLUTO WILL

It acts without harming the weakened tissues of a sick person's digestive tract, won't it be the best thing in the world for your own perfectly sound intestines?

The answer is obvious—Pluto Water is the best, the safest, the surest laxative for everybody—sick or well!

Pluto Water, as you know, comes from French Lick, Indiana—home of America's greatest health resort. It contains all the essential mineral properties of the famous natural waters that rise from Nature's own laboratory down there in the Cumberland foothills.

It's effective—it's safe—it's certain!

Thousands of eminent American physicians prescribe Pluto Water regularly. Ask your own doctor—no doubt he also endorses it. Eminent British, French, and German physicians recognize in Pluto the ideal saline water laxative.

Hospitals keep Pluto Water constantly in stock. Ships carry Pluto Water on long voyages.

Railway passengers find Pluto Water in dinner and club-car.

You can buy Pluto Water in practically every drug store in practically every civilized country. What more proof can you ask that Pluto is the one best laxative?

Even if it cost a thousand dollars an ounce it couldn't be any better. But it doesn't—it's only 20c (for the small size) and 45c (for more than twice as much) in bottles at drug stores and fountains.

Keep Pluto Water always on hand. It's a friend in need—and as a daily tonic, diluted in plain hot or cold water, for the digestive tract—it can't be beat!

Shredded Wheat Is Health Food

"Eating for Health" is easy if you do it the Shredded Wheat way. Health, we all know, is largely a matter of nutrition. It has been said that "what we eat today runs around tomorrow." But one thing is certain and that is that the human animal must eat some roughage to serve as a brush to keep the system clean and prevent self-poisoning. Nature provides this brush in cellulose. You can't buy it in a brush factory, but you will find it in nearly all carbohydrate foods, such as apples, lettuce, wheat, cabbage, string beans, celery, etc. In Shredded Wheat, America's most popular breakfast food, you get the cellulose that is necessary, and you get it combined with the rich nutritive elements of the whole wheat grain. There is no substitute for shredded wheat biscuits.

KITCHEN INSTALLED

Martha Lee then introduced Mrs. Lilla Pauline Cross, well-known lecturer and household economist.

She pointed out many conveniences in the modern kitchen, using as examples the equipment of the kitchen which has been installed at the Statler Hotel for the duration of the school.

She stressed the importance for the new housekeeper of having good measuring utensils, simple, but well made, and of using reliable standard cook books in place of haphazard guess methods.

Pencil file and papers ruled as the visitors made rapid notes and questions popped at the lecturer as soon as she had finished her demonstration.

"Homemaking is the greatest business in the world," declared Mrs. Cross, "and to be successful it must be conducted systematically and budgeted like any other going concern. Let your meals be eaten amid pleasant chatter to aid digestion and do not forget to provide for maintenance and flowers. They are the soul of the house."

MANY AWARDS

Mrs. Cross stressed the importance of good cooking utensils, standard measuring cups and reliable cook books, and she pointed out the many new conveniences shown in the model kitchen on the stage.

First Day of School Big Success

More than 2200 women attended the opening session of the Martha Lee Cooking School, which began its four-day session Tuesday at the Statler Hotel under auspices of the Boston Evening American and Sunday Advertiser.

The crowd was a merry one as well as a big one. Women began to assemble shortly after one o'clock although the lecture was announced for an hour later. The hall hummed with speculation as to what the lecturer would say and what she would prepare. There was a musical program while the audience waited.

Mrs. G. A. Robertson, managing editor of the Boston Evening American, introduced Martha Lee who addressed the ladies and broadcast a few remarks over station WLEN.

Cooking Expert

MRS. LILLA PAULINE CROSS who is lecturing at the cooking school being conducted by the Boston Evening American and Sunday Advertiser at the Hotel Statler.

anyone who viewed the assembly of thoughtful, earnest women attending the cooking school being conducted yesterday in the Statler Hotel.

COOKING AN ART

From homes of every class and station the assembly gathered. It is marked by a simple outstanding characteristic—that of an intent and eager desire to learn the "art" and methods of beautiful, wholesome and pleasant cooking.

Mrs. Cross, assisting Martha Lee, well known to the Statler Hotel, is the latest addition to the staff.

It is hoped that many of the guests at the Statler Hotel will be able to see at close range the lovely Sherrill dining suite, sent to the Statler Hotel for the duration of the school, and the splendid Oriental rug, a reproduction of a genuine masterpiece, which is one of the finest of the Karastan Oriental reproductions.

SPICES

This rug, is 9x12 size, is such an unusual buy you will want to see others of the kind at Paine's just across the street from the Statler. The regular price is \$25, but as a special saving event, Paine's are offering it for \$17, in all the latest designs and colors.

You are invited by Paine's to visit their furniture and rug department at your leisure. It entitles you to an obligation merely to visit their beautiful store and see their wonderful furnishings.

Rinso Scores

as Time Saver

An unequalled time saver to the busy housewife and mother in the day's work, Rinso is just what you need to get your laundry done in half the time it takes to do it the old-fashioned way.

Through the courtesy of Lever Bros., a generous box of this soap powder will be found in each of the 25 baskets given away on the four different days of the Boston Evening American Cooking School at the Hotel Statler.

Sugar Routs Fatigue, Adds Energy

After years of being during periods of great physical strain, for that have learned that it will take a long time to get back to normal. A number of depression experienced from using more of the sugar. This is explained by the fact that sugar is the chief source of energy through the walls of the stomach, particularly through the stomach. Once the stomach is shut down, the energy supply of the human body is exhausted. Sugar is the chief source of energy. The human body is not richly powered with sugar, but the brain and muscles of the high speed man—the professional athlete and the business man—the growing boy and the girl—will work with energy which seems to be increasing with every day and year.

Salt Necessary for Health; Use the Best

Salt is necessary for the formation of gastric juice which is one of the food elements—Nature and the salt shaker. Nature puts a little salt into meat, cereals, vegetables and water, but it is not enough for the human body. The salt in Holland, criminals were condemned to be fed only on water and bread made without salt, which was virtually a death warrant. Pure salt, like pure sugar, pure butter and fresh eggs, is essential to health. A guarantee of the purity of the salt you purchase is the name Worcester on the outside of the large package. No salt can be purer. It is easier for you to season your food with Worcester salt because it is in a salty without a particle of better taste and cooking salt.

'Base Hits Will Win,' Says Bottomley

By JIM BOTTOMLEY
First Base of the N. B. A. Cardinals

Philadelphia, Oct. 1. (AP)—The best hitting in the world will not bring victory unless there is the old dynamic in the lineup.

All season it has been the ability of our team to crash that has won us the games that brought us to the top of the heap in the National League.

Some Cardinals outbatted the Athletics by about 20 points, as a team, in the National League.

We have a weak point on our attack. With the exception of the pitchers, every man in the lineup has been hitting around .300 or better.

I believe I feel that it will take a long time to get our lineup into the shape of a team that will be a contender for the championship.

Our lineup with the Pilsner, Delmonico, and the other three, is a good one. We have a good lineup.

Vermont Seeks Win

LOCAL BOYS BACKBONE OF TEAM

By BILL GRIMES

Burlington, Vt., Oct. 1.—Under a new coach, Dave Dunn, a former Yale and Fordham player, the University of Vermont will seek a green and untired squad against Harvard at the Stadium on Saturday.

For the past few years Vermont has had no chance to play a top league athletic team. The Mountain State university has been going through a period of reconstruction. The college authorities have "dismembered" the team, which had been the best in the state for the first time, the new coach, Dave Dunn, has been in effect. The new coach, Dave Dunn, has been in effect. The new coach, Dave Dunn, has been in effect.

Green's Bill Grimes Mountain boys were able to make a variety of grade. Built up the team, which will start against Harvard are Vermonters, which is unparalleled in the annals of Vermont sports. The team, which will start against Harvard are Vermonters, which is unparalleled in the annals of Vermont sports.

Vermont will be without the services of Jack Dunn, a former Yale and Fordham player, who is a hardy injured shoulder. In the fourth period of the Amherst game, and will be on the sidelines for at least three weeks.

Vermont Opposed to Double-Header
The announcement that Harvard had scheduled a double-header for Saturday, Oct. 4, at the Stadium, has been met with approval. Although Coach Dunn refused to comment on the matter, the team's manager, Al Albert, said that the team would be glad to play a double-header.

Vermont Line
Vermont's first line is heavy, averaging 150 pounds. The backfield is made up of the ordinary high school material, with an average of 140. Coach Dunn, however, has a few surprises in store. The team's manager, Al Albert, said that the team would be glad to play a double-header.

MR. BOSTON

JACK CONWAY

Mr. Boston found Joe Santa, a fat seven-inch Portuguese giant, punching away at a bag at 11 p.m. in a gym. However, when Santa finished his workout, Mr. Boston pulled him into a corner. J. A. Forster acted as umpire.

"How much do you weigh?" queried Mr. Boston. "I am down to 355 pounds for my last fight," replied Santa. "I am in good condition and feel I should win by a knockout."

"What do you eat?" asked Mr. Boston. "I eat a lot of meat," replied Santa. "I eat a lot of meat," replied Santa. "I eat a lot of meat," replied Santa.

SOMETHING TO THINK ABOUT

Editor Boston American:
He studied abroad. How often we hear this said, oftentimes boastfully. He or she went abroad to study medicine, surgery, music, etc. What is the matter with our American institutions of learning?

Whether or not our institutions are less advanced than those of other countries, I do not pretend to know. Our institutions may be capable of producing the best physicians, surgeons, musicians, etc., but there is one thing we do not appear to be able to do, and that is to produce real statesmen.

If it is necessary to send our students to Europe in order that they become capable physicians, surgeons, musicians, etc., why would it not be a good idea to send, each year, a number of our most intellectual young men and women to Europe to study statesmanship, or we might import a number of tutors from abroad.

Why have we not made a statement? It is because there is too much individual greed, or it is because our educational system is at fault? I believe it is due to both. We are too much inclined to disregard the fundamental of all things.

Inside Story of Rise Told by Guggenheim

How Family Baffled Early Hardships Revealed by Leader

By B. C. FORBES

New York, Oct. 1.—The inside story of how the Guggenheim family came to the money, and how it was made, is told in a new book, "The Guggenheims," by the late Mr. Guggenheim's son, Mr. Benjamin Guggenheim. The book is a story of the family's rise from poverty to wealth, and of the hardships they endured in the process.

'BULL POOL' IN WHEAT SEEN IN MAKING Today's News of Live Stocks in Wall Street

By FRANK H. NELSON

Important interests in the wheat market are being formed, it is believed, and a "bull pool" is being made. The market is being manipulated, it is said, and the price of wheat is being driven up.

Having appeared more effective in the past few days, the wheat market is now being manipulated.

Col. Benjamin A. Franklin, president of the National Wheat Producers' Association, is believed to be the head of the pool.

The pool is believed to be the work of a group of men, including Col. Franklin, who are trying to drive up the price of wheat.
